

FAQ

What preparation will Year 6 children get before their move to Secondary school?

It is unlikely that we will be able to run the usual transition packages of visits to other schools, having teachers and former pupils now at Secondary School come to us, and face to face meetings between staff.

The meetings will simply be covered digitally.

Secondary schools are preparing alternatives, such a video tours.

We are part of a transition planning project with one Secondary school.

It remains very unlikely that the children will be able to visit their destination Secondary School this term – they are closed except for some limited contact with Year 10 pupils and schools have been told not to have school trips or to have rota arrangements. Policy and guidance is changing rapidly, and we may find it is possible in a few weeks. This advice will be updated appropriately.
