

FAQ

Will children still move year group in September?

We expect so.

We expect that every year group about to move key stage or school will do so, and this then means that all other year groups need to move on as well.

For our school we have 120 Year 3 pupils due to start. They have to move on from their Infant Schools in order that children can start in Reception. For us to make room for our new pupils our current Y6 pupils must move on to Secondary Schools.

It is then logical that each year group moves on to the next year group in order.
