Dear parents/carers

Education City Home Access

After the success of previous years, we have decided to continue our subscription to Education City, which provides children with fun educational games in the form of online activities. Currently, all children have access to this fantastic resource during school hours which includes maths, literacy and science modules.

We are offering you the opportunity to subscribe to 'home access' which allows your child access to the site 7 days a week for a whole year. This proved more successful than we ever could have imagined last year, with 300 out of 480 children taking advantage of the home access option, accessing over 31,000 activities.

This year, we are offering this opportunity again. **If you would like to take advantage of the home access option, you will need to make a £2.30 payment via sQuid by Monday 4 February.** This covers Education City's home access cost and the associated administration costs.

Once this has been paid, children will be able to access the site outside school hours by using the same password as they currently use during the school day.

If you wish to subscribe after the deadline, you will have to contact the school office directly who will add you to a waiting list. At this point, we will only be able to distribute home access logins in batches of at least ten which means you will remain on the waiting list until we have at least that many requests.

Education City is a fantastic resource and I hope it can become even more successful than last year with even more children taking advantage of the home access opportunity.

Should you have any queries, please do not hesitate to contact us.

Yours faithfully

S Jones
Head Teacher
